

ACTIVE DISPLAYPORT TO HDMI CABLE WITH HDR

WHAT IT IS

Lindy's Active DisplayPort to HDMI Cable range combines superior performance with stylish design to provide a high quality conversion of DisplayPort 4K@60Hz signals to output to an HDMI display or projector. Available in lengths from 0.5m to 3m.

WHAT IT DOES

CONNECTS a DisplayPort equipped device to a 4K HDMI display or projector

SUPPORTS high quality resolutions up to 4K@60Hz

FEATURES active chipset for enhanced compatibility with various graphic cards

WHY YOU NEED IT

- **VERSATILE.** These cables are great for creating eye-catching retail displays, innovative working environments or immersive video playback in sports bars and home cinema installations, while support for uncompressed multi-channel audio allows for an impressive three-dimensional surround sound performance to compliment detailed, clear video.
- **HIGH RESOLUTION.** With support for resolutions up to 4096x2160@60Hz and with additional support for High Dynamic Range, 4K content can be viewed with crystal clear clarity, enhanced contrast and more lifelike colour.
- **COST EFFECTIVE.** Support for AMD Eyefinity technology also brings the user a cost effective way of creating a non-standard aspect ratio or ultra-high resolution display made up from up to 3 or more monitors. This feature also allows the user to run multiple applications simultaneously on separate screens, improving productivity in the workplace or creating a widescreen gaming experience.
