

REVOLUTIONISE YOUR AV SETUP TODAY

EXTEND YOUR REACH: CONNECT, COLLABORATE, CREATE

In modern meeting spaces and large-scale AV setups, seamless connectivity and hassle-free switching are crucial. Without the right technology, meetings can be disrupted by unreliable USB connections, manual switching delays, and signal degradation. Lindy's USB-C Hybrid Cables and Inogeni's Toggle Rooms/XT work together to deliver a seamless, high-performance solution to overcome these challenges.

THE CHALLENGE

Overcoming AV Connectivity & Switching Challenges

Switching between a room PC and a guest laptop should be effortless, yet many setups struggle with USB cable limitations, signal drops, and frustrating manual reconfigurations. These technical barriers lead to wasted meeting time, decreased productivity, and a poor user experience.

THE SOLUTION

Switch with ease, connect without limits
The combination of Inogeni's Toggle Rooms/XT and Lindy USB- C Hybrid cable provides a practical and scalable solution for meeting rooms of all sizes. By eliminating manual switching hassles and USB connectivity limitations, this setup enhances productivity and streamlines meeting experiences.

PRODUCTS USED

Inogeni Toggle Rooms/XT

- One cable, total control: Simplify with a 100W USB-C connection
- Seamless switching: Easily switch between multiple hosts & peripherals
- Uncompromised video: HDBaseT technology delivers 4k60 up to 40m or 1080p up to 70m for the Toggle Rooms XT
- Works with: Teams, Zoom, Logitech, Crestron and more

Inogeni Toggle Rooms, 3 Host Switcher for USB 3.0/HDMI Devices

Inogeni Toggle Rooms XT, USB/HDMI-3 Host Switcher with Extension

43398 - 10m USB 3.2 Gen 2 & DP 1.4 Type C Fibre Optic Hybrid Cable

43399 - 15m USB 3.2 Gen 2 & DP 1.4 Type C Fibre Optic Hybrid Cable

USB 3.2 Gen 2 & DP 1.4 Type C Fibre Optic Hybrid Cable

- Blazing fast speeds: 10Gbps data transfer & 4K video at 144Hz
- Multifunctional design: USB 3.2 + DisplayPort 1.4 with 60W power delivery
- Reliable long- distance connection: Perfect for large-scale conference rooms
- Extended Reach: Available in 10m & 15m lengths, making it ideal for large conference tables and AV setups

"With Lindy's USB-C Hybrid Cable extending up to 15 metres, Inogeni's Toggle Rooms solutions provide unmatched connectivity and superior performance - even in the most demanding environments."

Jean-Pierre Simard, INOGENI Inc. CMO

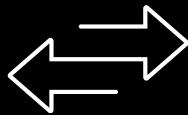

RESULTS & BENEFITS

Lindy's high-performance USB-C solutions, combined with Inogeni's Toggle Room technology, offer an innovative way to extend connectivity and enhance meeting efficiency. This powerful integration enables users to switch effortlessly between multiple conferencing systems, ensuring hassle-free device compatibility without constant reconfiguration. With extended USB-C reach, teams can connect peripherals such as cameras, microphones, and displays from any point on the table, eliminating the frustration of short cables and awkward setups.

Additionally, this solution enhances flexibility and productivity, allowing businesses to create a truly adaptable meeting space that accommodates both remote and in-person participants. By reducing setup complexity and optimising video conferencing workflows, Lindy and Inogeni deliver a seamless, professional, and future-ready collaboration experience.
