

5 PORT HDMI 18G SWITCH

WHAT IT IS

The Lindy 5 Port HDMI 18G switch is a compact, high quality solution for effortlessly switching between 5 HDMI source devices when connected to a single display.

WHAT IT DOES

SWITCHES between 5 HDMI source devices when connected to a single display

SUPPORTS 18G resolutions up to 4K@60Hz, with additional support for HDR

ALLOWS control via push button, IR remote and auto-switching

FEATURES compact, minimalist design to ensure no distraction from the display or installation

WHY YOU NEED IT

- **HIGH RESOLUTION.** Supporting HDMI 18G signals, this switch allows for the transmission of detailed 4K Ultra HD resolutions, while additional support for HDR ensures video content features greater contrasts and a much wider colour gamut.
- **CONVENIENT.** HDMI switches are reliable solutions for controlling and switching multiple HDMI source devices and outputting to a single display.
- **VERSATILE.** The switch is perfect for a premium residential setup, eye-catching digital signage in retail settings or engaging presentations. HDCP 2.2 support ensures there are no compatibility issues with a variety of 4K content from source devices including set top boxes, Blu-Ray players and 4K HDR media players.
- **EASY-TO-USE.** This switch also provides IR remote or push buttons on the main unit. The switch can also identify the active HDMI source device and automatically switches to this option, providing a useful solution for when the unit is required to be out of sight.
