

BUILT TO WORK TOGETHER

NEAT INTELLIGENCE
LINDY CONNECTION

TWO BRANDS, ONE SEAMLESS EXPERIENCE

The partnership between Lindy, a global leader in connectivity solutions, and Neat, a pioneer in innovative video collaboration technology, brings together two complementary forces. The shared mission of this partnership is to simplify and enhance the meeting experience through powerful, elegant, and reliable integration.

THE CHALLENGE

Today's meeting spaces demand more than just standard connectivity. Integrating advanced video collaboration solutions from companies like Neat often involves addressing challenges such as long-distance signal transmission, maintaining a clutter-free setup, and ensuring compatibility across diverse room configurations —areas where traditional cabling solutions frequently fall short.

THE SOLUTION

Lindy and Neat share a commitment to simplicity, performance, and reliability, making their products naturally compatible. Neat's user-friendly devices pair seamlessly with Lindy's high-performance USB-C and HDMI solutions, ensuring full functionality across any room size. Together, they deliver a streamlined, dependable AV experience—ideal for modern, future-ready meeting spaces.

PRODUCTS DESIGNED TO INTEGRATE

Neat Bar Generation 2

- Seamless with Zoom and Teams, perfect for small to mid-sized rooms.
- With 50 megapixel wide-angle camera, intelligent framing and noise reduction.

Neat Board 50

- 50" 4K touchscreen with anti-glare and anti-smudge coating.
- Table stand included, wall and adaptive mounts optional.

Neat Board Pro

- Dual 50MP cameras with 16x zoom auto-frame and follow participants.
- 65" 4K touchscreen with anti-glare and smudge-resistant surface.

No. 43366 - DST-Pro Universal Laptop Docking Stations

- Powers your laptop with up to 100W while connecting three 4K displays and peripherals over a single cable.

No. 38346 - Lindy 70m Cat.6A HDMI 4K60 & Type C HDBaseT 3.0 KVM Extender

- Delivers 4K@60Hz, USB, & 60W Type C over 70m Cat.6A with IR, RS-232, audio out, and Power over Cable

No. 43393 & 43333/ 43398 & 43399 - USB 3.2 5/10Gbps & DP 1.4 Type C Fibre Optic Hybrid Cable

- Delivers 5/10Gbps data, DP 1.4 video with 4K resolution and 60W power up to 15m with minimal signal loss.

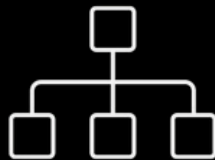

RESULTS & BENEFITS

Pairing Neat's intuitive collaboration devices with Lindy's high-performance USB-C and HDMI connectivity solutions delivered significant functional and aesthetic improvements. The integration enabled clean and efficient AV setups with seamless device performance, regardless of room size or configuration. Installations were simplified through Lindy's plug-and-play infrastructure, reducing the need for complex cabling or technical troubleshooting. The result was a streamlined user experience and visually polished meeting spaces free from excessive cable clutter.

Together, the solution provided a stable, future-ready collaboration environment that supports both in-person and hybrid working models.
