

DST-MICRO

USB-C LAPTOP MICRO DOCKING STATION

WHAT IT IS

The Lindy DST-Micro is a lightweight travel docking station, unlocking greater connectivity on your device, on the go. Part of Lindy's expert range of Laptop Docking Stations, this product has been designed to make travelling with your tech easy and stress-free.

WHAT IT DOES

ADDS an HDMI port, a USB Type A port and a Type C power supply port to your computer

SUPPORTS HDMI resolutions up to 4K 3840x2160@60Hz

MEETS USB 3.2/3.1 Gen 1/ USB 3.0 standard (5Gbps)

ALLOWS Power Delivery up to 100W to charge the laptop while using the Lindy DST Micro

WHY YOU NEED IT

- PORTABILITY.** As laptops become slimmer with smaller form factors, key ports such as HDMI and USB Type A, are increasingly hard to come by. However, if you travel with your tech, a full-sized USB Hub or Docking Station isn't always feasible and can add additional bulk and weight to your bag. The DST-Micro provides the solution to this. With an incredibly small form factor and retractable USB-C connector, this pocket-sized product allows you to expand your laptop's connectivity and can easily fit in your pocket, laptop bag or backpack.
- ADDED CONNECTIVITY.** The DST-Micro delivers an HDMI port with Ultra HD 4k capability as well as a SuperSpeed USB Type A port (5Gbps). There is also a USB-C charging port with pass-through charging up to 100W.
- PLUG-AND-PLAY.** The DST-Micro does not require any driver installation. This allows for seamless large-scale implementation and a hassle-free experience.
